

WHO WE ARE

The Southmead Project provides free long-term counselling for adults who have experienced any type of abuse. We also offer Nexus counselling for survivors who currently have an addiction to drugs or alcohol.

We support clients on our waiting list with pre-counselling groups, and run a Family Support Group for people that support loved ones with an addiction.

Our Active Recovery Project holds weekly activity sessions in the community for survivors to help build their self-esteem, confidence and peer support networks.
